Re: Application for Change under Ground Water Claim No. 161932

Dear Mayor Lynn:

In response to your request, you are hereby granted an extension to put the water to full beneficial use for the reason(s) below:

According to your request, you will need additional time to collect data. In addition, time to determine how the existing rights and water use will interact with this authorization as developed. In review of your request for extension, it appears you have completed construction of your project and made significant progress in putting the water to beneficial use. Your request is for a reasonable and short period of time. We will grant you an additional two years to complete your project.

The new deadline to submit your *Proof of Appropriation of Water* is April 1, 2012.

Water use data shall be recorded weekly and maintained by the property owner for a minimum of five years, and shall be promptly submitted to the Department of Ecology upon request.

WAC 173-173 describes the requirements for data accuracy, device installation and operation, and information reporting. It also allows a water user to petition the Department of Ecology for modifications to some of the requirements.

Department of Ecology personnel, upon presentation of proper credentials, shall have access at reasonable times, to the project location, and to inspect at reasonable times, records of water use, wells, diversions, measuring devices and associated distribution systems for compliance with water law.

You have a right to appeal this decision. To appeal this you must:

- File your appeal with the Pollution Control Hearings Board within 30 days of the "date of receipt" of this document. Filing means actual receipt by the Board during regular office hours.
